Projects

Hostel Leave & Complaint Management System — Source Code | Demo

- **Tech Stack:** PHP, AJAX, JavaScript, MySQL, HTML, CSS, Bootstrap, WordPress
- Developed a full-stack system to streamline hostel leave requests and complaint management, solving a critical administrative challenge for 4600+ students.
- Presented the project to Senior University Management, where it was accepted as a model and later implemented into the official ERP system.
- Built a role-based admin dashboard with secure authentication and real-time data tracking, reducing manual paperwork by 80%.

NGO Management System — Source Code | Demo

- **Tech Stack:** PHP, AJAX, JavaScript, MySQL, HTML, CSS, Bootstrap
- Developed a custom web-based system for an NGO client to manage donor records, volunteer data, and event notifications, improving operational efficiency by 50%.
- Implemented an automated email/SMS notification module, ensuring 100% timely communication with stakeholders.
- Designed an intuitive admin dashboard for simplified data entry and reporting, reducing manual errors by 55%.

Fitness Center Management System Source Code | Demo

- **Tech Stack:** PHP, AJAX, JavaScript, MySQL, HTML, CSS, Bootstrap
- Built a custom management system for a youth fitness center (ages 8–15) to track memberships, BMI history, fitness assessments, and progress analytics.
- Designed interactive dashboards with graphs and charts, enabling trainers to monitor individual progress and tailor fitness plans, improving training effectiveness by 40%.
- Developed a criteria-based evaluation module using structured questionnaires to assess children's progress, reducing manual assessment time by 60%.

Digits WordPress Plugin | Buy Link

WPNotif WordPress Plugin | Buy Link

- Implemented customizable form fields and seamless WooCommerce & BuddyPress integration, facilitating flexible user onboarding and checkout experiences.
- Integrated advanced features including multi-gateway support across 170+ providers, multilingual templates, smart country-code detection, and GDPR compliance, boosting customer engagement and delivery efficiency.
